

COMMERCIAL STORAGE SOLUTIONS

NOR-CAL
MOVING SERVICES

NOR-CAL Moving Services offers a variety of commercial warehousing services to fit all business needs. We have a variety of options available for holding items with just the space you need at any particular time of year.

VAULT STORAGE

Items brought into our warehouse are securely stored in barcoded vaults. Each vault is 245 ft³ or (H)7' x (W)5' x (L)7'.

INVENTORY MANAGEMENT

All items brought into our facility are managed and inventoried accordingly. We have an online client portal where you can keep track of your items 24/7.

RECEIVING

We can receive shipments on your behalf to deliver out to you or add to your inventory. We catalog every item that comes in and out of our warehouse to maintain maximum security. This includes taking a photo and placing a barcode that is viewable online.

PICK-UP OR DELIVERY

We can pick up or deliver items coming into or going out of our storage facility. Using our online client portal, you can select what items you want delivered.

RACK OR FLOOR STORAGE

We are able to provide suitable storage for various items on racks or floor level.

SHORT/LONG TERM PERIOD

With no minimum storage period, we can help package, transport and store items for as long as you like. Once you are ready, we can arrange to deliver your items and can help with the installation, moving and set-up.

LOCAL ACCESS

For many businesses in the area, our storage facilities are conveniently located in Hayward and San Jose. Our facility centers are open M-F from 8am to 4pm. We restrict access to our facilities as an added layer of security.

FLEXIBILITY

If you have specific storage requirements like floor staging or packing, contact us and we can assist.

PALLET STORAGE

Larger items can be palletized and stored in our warehouse.

FULLY SECURE

Secure and temperature monitored facility equipped with fire alarm protection.

DISPOSAL

Should you have any stored items that are no longer needed, we can provide disposal/recycling services.

DEDICATED STAFF

We assign a trained warehouse staff specific to each customer. They are responsible for cataloging and organizing items of customers and assisting them during their regular storage visits.

CONTACT US

OUR PROCESS

1 Every item that comes in and out of our warehouse is catalogued to maintain maximum security.

Using a tablet and scanning device, we can inventory items on site or in our warehouse.

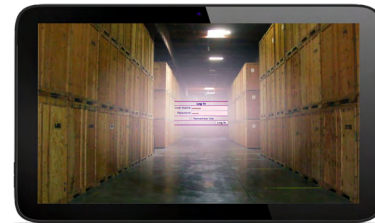

3 This process includes taking a photo, placing a barcode and describing the item.

4

Once inventory is complete, we synchronize. This then uploads into our database.

5

Items are immediately viewable online for customers through our online client portal where you can keep track of your items 24/7.
